

Your multimedia connection is right here in Downtown Muncie! We offer innovative solutions for your multimedia project, in the heart of "America's Hometown."

From audio and video production to website development and networking, we can help you get connected with a full range of multimedia services. We also offer graphic design and print services, as well as multimedia duplication.

Call us anytime to find out how we can help you. We provide 24-hour technical support, and the same friendly service you would expect from a local company. We'll help you get connected.

In 1992 a small recording studio called The Allnight Production Room opened for business in the "starving artist" community of Downtown Muncie.

With time and experience, and a loyal customer base, we have grown into a full-scale multimedia production company. Today, going into the 21st Century, we are proud to be a continuing part of Muncie's Downtown renaissance.

Internet

- **Internet Consulting**

From websites to Local Area Networks, we will help you find the best solution to get connected. Call us anytime to arrange a consultation.

- **Web Hosting**

Already have a website? Host it locally! We maintain our own servers downtown, and hosting plans can be designed to fit your website. We also offer reseller accounts and managed servers.

- **Website Design**

Let our experienced design team create a website for you, or help you implement your own design. We'll help you develop a functional website at a fraction of the cost.

- **Turnkey E-Commerce**

Start making money from your website right away. We can help you create an online storefront that's user-friendly and hassle-free!

Audio

- **Live Recording**

We offer the most affordable multi-track digital recording for your demo or full-length project. We will record your act any time, any place.

- **Remixing & Mastering**

We'll help you get a pro audio mix on your recorded tracks, or we can add a polishing touch to your mix. Advanced Pro Tools production puts state-of-the-art mixing and mastering at your fingertips.

- **Sound Reinforcement**

Our live sound engineer has 20 years' experience working with national recording acts and Grammy® Award-winning artists, as well as local bands and choirs.

- **Transfer and Preservation**

Preserve your memories! We can transfer your analog recordings to a variety of digital media, including DAT, ADAT and CD.

Video

- **Video Recording**

From weddings and parties to music videos, we can record your event or project direct-to-digital at a price to fit your budget.

- **Editing & Post-Production**

Bring us your video project or home movies for editing. Our Avid Video Suite lets you make the most out of any video you have. We can also help you add the finishing touches like titles and effects.

- **Transfer & Preservation**

Preserve your memories! We can transfer your home movies, videos and/or photos to tape, CD, or DVD. Photo retouching services are also available on request.

- **Video Solutions**

From web cams to security and surveillance cameras, we can help you find the best video solution for your business.
